Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed that there are no commercial premises currently involved.
- CDFA confirmed that there is no public health risk due to this virus.
- [Cal OES Agency Representative \(AREP\) is coordinating with California Volunteers and San Bernardino County OES to locate Spanish language interpreters to conduct surveillance \(education/outreach\).](#)
- [On 06/01/18, the USDA National Incident Management Team \(IMT\) will arrive at the ICP.](#)
 - [This team is composed of 17 members and the rotation is 3 weeks.](#)
 - [Based on a delegation of authority plan developed by CDFA, CDFA personnel will team up with each IMT section chief to ensure communication and coordination of the response.](#)

Activations

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will continue to monitor the incident.

SITUATION SUMMARY

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties (Continued)

Deployment

- 1 Cal OES Science and Technology Advisor deployed on 05/29/18 until 06/01/18 to the CDFA/USDA ICP as a Biosecurity Infectious Disease Subject Matter Expert with an operational period of 0700-1900 hours.
- 1 Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) deployed to the CDFA/USDA ICP as an Agency Representative (AREP) with an operational period of 0700-1900 hours.
- 1 Cal OES Logistics Section Chief (Log Chief) deployed to the CDFA/USDA ICP with an operational period of 0700-1900 hours.

Logistics

Per the Cal OES Southern Region AREP on 05/31/18 at 0747 hours:

- Cal OES Southern Region along with Cal OES Logistics continue to assist CDFA in identifying a facility to expand operations in the immediate area of the CDFA district office in Ontario, San Bernardino County.
 - AREP coordinated with the County and city of Ontario for possible use of a facility at the Ontario International Airport. The information was forwarded to the Logistics Chief and ICP Incident Commanders.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

| National | Northern California | Southern California |
|-----------------------------|--|--|
| Preparedness Level 2 | Preparedness Level 1 | Preparedness Level 2 |
| | Multi-Agency Coordination System MACS Mode: 1 | Multi-Agency Coordination System MACS Mode: 1 |

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

Grant, Vegetation Fire, Alameda County and Contra Costa County (FINAL)

Location: Grantline Rd x Mountain House Rd,

Jurisdiction: DPA, SRA/LRA

Start date/time: 05/30/18 at 1321 hours

Per Cal OES Fire Duty Officer and 209 as of 05/31/18 at 0731 hours:

- 500 acres grass, 85% contained
- 2 fires in Alameda County
- 5 fires in Contra Costa County
- Significant demobilization of resources
- Continued mop up

MAJOR ROAD / HIGHWAY / BRIDGE CLOSURES

| Major Road Closures | | |
|----------------------------|----------------------------|----------------------------|

- None reported.

WEATHER OF CONCERN

Weather of Concern

- An exiting disturbance will bring cooler than normal temperatures and windy conditions for northern California today.
- High pressure will rebuild this weekend, leading to temperatures well above average.

Weather Advisories, Watches, and Warnings currently active in California:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca>

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

Key Points

05/31 – 06/06

Thursday

- A few isolated showers and thunderstorms, mainly in higher terrain of northern CA, with widespread gusty winds

Friday-Monday

- Generally dry conditions with some areas in the central valley and southern CA reaching well above normal temperatures. These hot temperatures may cause heat impacts to sensitive groups.

Tuesday-Wednesday

- A weak disturbance will bring cooler temperatures with increasing winds and a slight chance for isolated mountain showers and thunderstorms for northern CA, but no significant weather/water impacts expected

California OES Impact Threat Matrix

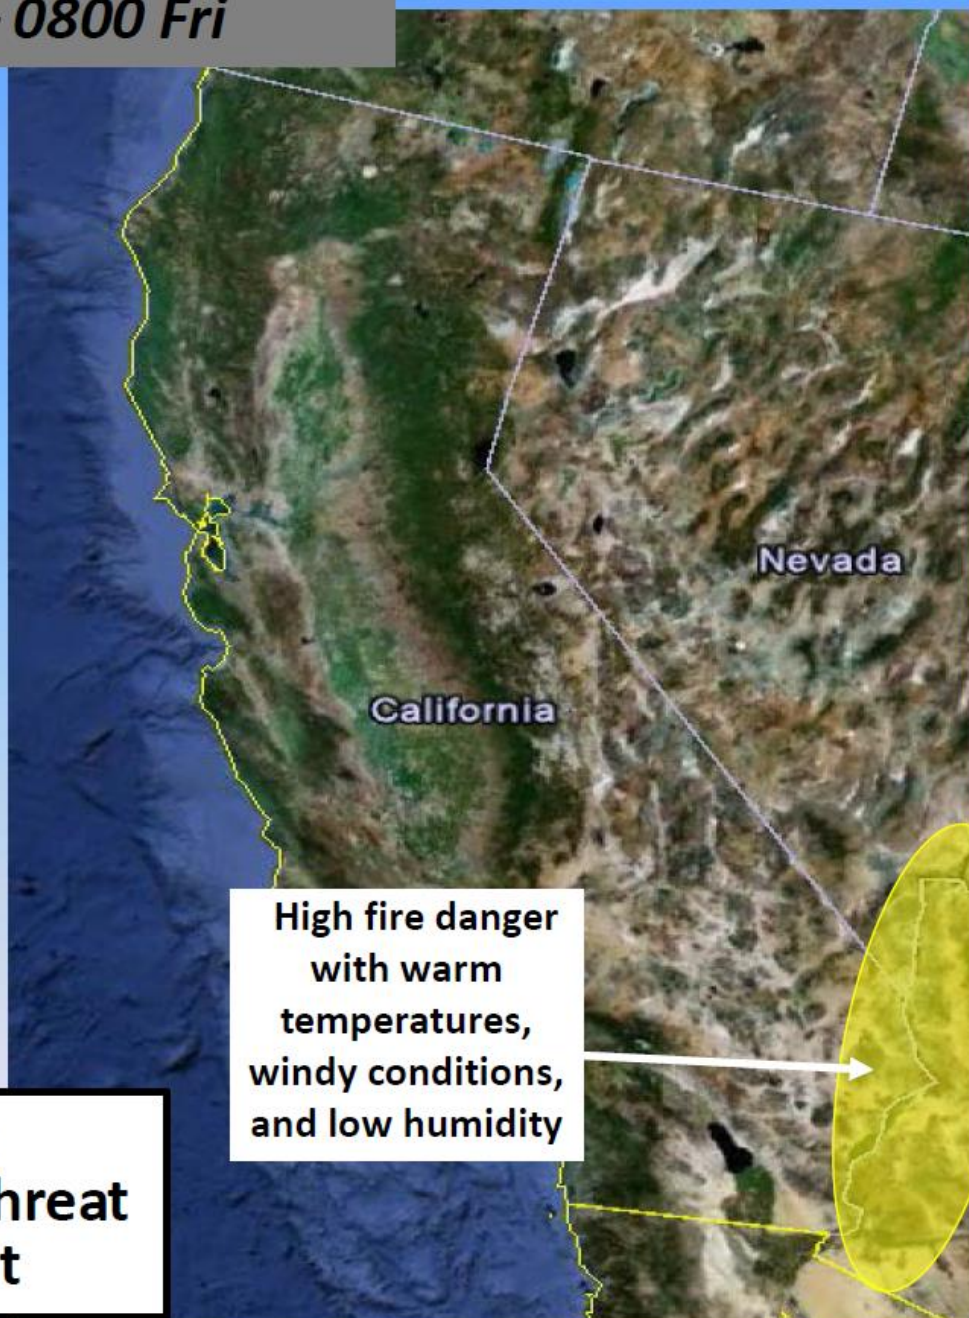

May 31 – June 06, 2018

| DAY/THREAT | THU | FRI | SAT | SUN | MON | TUE | WED |
|-------------------------------|-----|-----|-----|-----|-----|-----|-----|
| Fire Weather | | | | | | | |
| Winds | | | | | | | |
| Extreme Cold | | | | | | | |
| Snow | | | | | | | |
| Heavy Rain/ Flash Flooding | | | | | | | |
| River Flooding | | | | | | | |
| Severe Weather | | | | | | | |
| Heat | | | | | | | |
| Tropical | | | | | | | |

-  High Threat
-  Moderate Threat
-  Slight Threat
-  No Discernible Threat

Day 1 Weather Hazards
Valid: 0800 Thu – 0800 Fri

High fire danger
with warm
temperatures,
windy conditions,
and low humidity

-  **High Threat**
-  **Moderate Threat**
-  **Slight Threat**

WEATHER OF CONCERN

Weather of Concern

- High pressure will rebuild this weekend, leading to temperatures well above average for portions of Southern California.

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

The Pacific trough will continue to progress eastward today. A few spot showers and storms will be possible across the far north. Afternoon temperatures will be 5 to 10 degrees below normal. The wind flow will be lighter compared to yesterday although a few gusts in the 20s will be possible across the greater Bay area and along the Cascade and Sierra ranges.

A drying and warming trend will start up Friday and last into the weekend. Afternoon temperatures will range between 5 to 15 degrees above normal. The wind flow overall will be light for the majority of the period although southerly winds should increase Sunday afternoon ahead of another Pacific trough. There should also be a brief period of light to moderate N-NE winds across the Sacramento Valley and adjacent foothills Saturday morning.

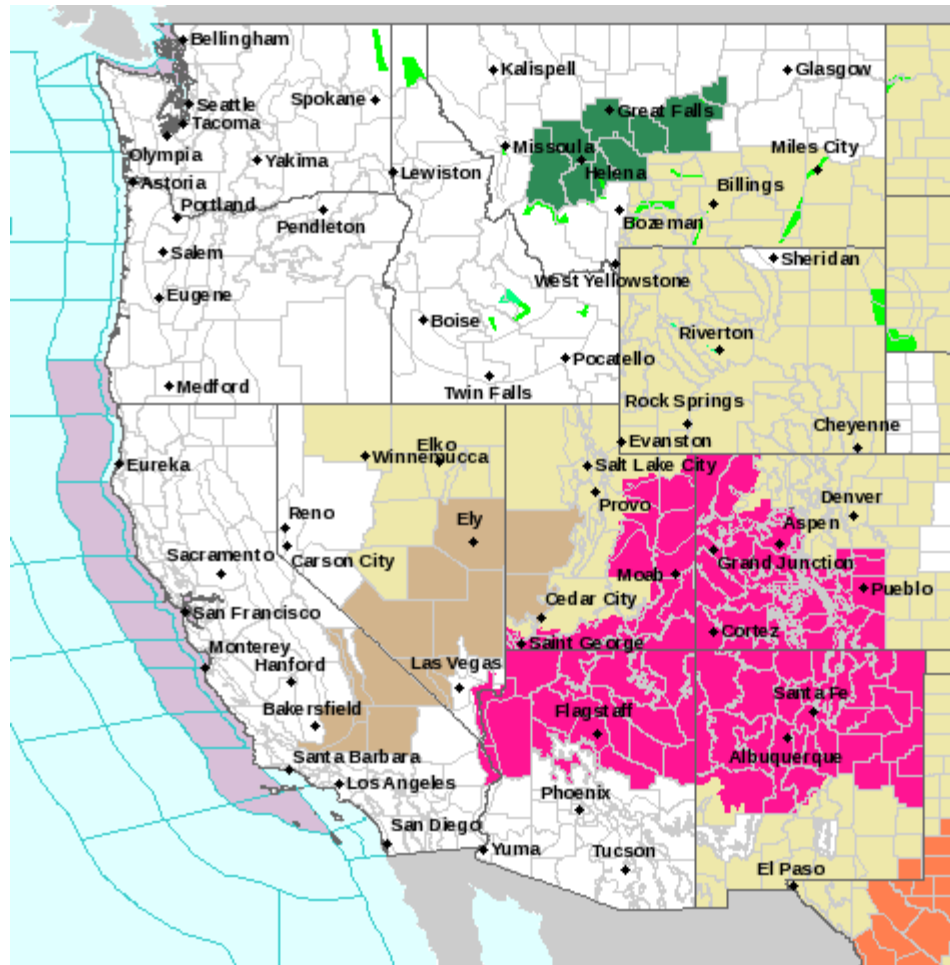

Still expecting a trough passage for early next week. The models remain consistent with keeping the trough drier and accompanied with a cool down to near normal temperatures. The rest of next week is harder to predict due to the predicted flow pattern by the models although the current trend is drier.

SOUTHERN CALIFORNIA

A trough will pass through the area today which will continue to generate windy weather in and near the deserts as well as a deep marine layer. Widespread stratus can be expected today which will be slow to clear from interior areas and lower coastal slopes below 4,000 feet. Some patchy drizzle may be possible this morning near the higher terrain. The wind direction will be a bit more northwesterly today, which will cause the strongest winds to be over the Kern County Mountains where wind speeds of 25-35 mph with gusts to 45 mph will be common. Expect similar wind speeds in the Banning Pass into the Coachella Valley. Temperatures will remain 10-15 degrees below normal with highs in the 60s along the coast to the upper 70s in the valleys. But a warming trend will develop Friday which will last through next Monday. Highs over the weekend will climb into the upper 90s in the valleys to 110 in the low desert by Sunday. Minimum RH will drop back into the teens over most areas below 7,000 feet away from the coast. But light winds should result in good recovery each night. Expect less marine layer coverage, but there will still be some stratus near the immediate coast each day. Next week, another trough will bring a slow cooling trend along with a return of onshore flow. However, temperatures next week will be warmer than this week overall. No thunderstorms are expected throughout the outlook period.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-46997, 5/30/18, 0855 hrs:** Siskiyou County Sheriff's Office (SCSO) requested immediate support for a high-elevation search & rescue (SAR) mission at the peak of Mount Shasta, 12,800 ft. A 23 year old male hiker was wet, hypothermic, and immobile. CHP aircraft made several attempts, but was unable to reach the elevation due to wind and cloud cover. California National Guard Joint Operation Center (JOC) was contacted and assigned the mission to a CH-47 crew from Stockton. Prior to launch, wind and cloud cover diminished for a short period and permitted the CHP aircraft to successfully prosecute the rescue. The CNG mission was cancelled. **MISSION CLOSED**
- **2018-LAW-47011, 5/31/18, 1233 HRS:** CalFire contacted CSWC regarding a search & rescue (SAR) mission in San Diego County. CalFire personnel were on scene with an ill hiker on the Pacific Crest Trail, mile marker 30, requesting an air extraction. Fire and CHP aircraft were grounded due to weather and a US Coast Guard (USCG) aircraft was requested. San Diego Sheriff's Office (SDSO) SAR coordinator was notified of the mission and requested a mission number for USCG assistance. At 0150 hrs, SDSO reported that the victim was walked out on foot and there was no further requirement for air extraction. **MISSION CLOSED**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
